4. To filter on different indicators, Click on **Advanced Search** button.

5. How to use Advanced Search Option

This has very powerful search capabilities to filter data on indicators, filter based on two indicator comparison (ex: SMA 50 > SMA 200), multiple filters on different indicators:

Click on the **Advanced Search** button. You will get the following:

The screenshot shows the Advanced Search interface. It consists of five rows of criteria selection. Each row has a 'Select One' dropdown menu, a 'Contains' dropdown menu, and another 'Select One' dropdown menu. Below these are five more rows with 'Select One' and 'Contains' dropdown menus followed by empty text input fields.

The first 5 options to search based on comparison of 2 indicators. Ex: **SMA50** greater than **SMA200**

The last 5 options to search based on indicator values.
Eg:
ADX greater than **40**

Match: All Criteria Any Criteria

Select the Matching Criteria:

The image shows a search criteria selection interface. It consists of a list of criteria with corresponding dropdown menus. The criteria listed are: SMA50, Select One, Select One, Select One, Select One, Select One, Select One, Select One, Select One, Select One, SMA5, EMA5, SMA13, EMA13, SMA20, EMA20, SMA34, EMA34, SMA50, EMA50, SMA89, EMA89, SMA200 (highlighted), EMA200, BBandUpper, BBandLower, BBandMid, MACD, ADX, and DMI+. A red arrow points to the dropdown menu for the first 'Select One' criterion. Below the list, there are radio buttons for 'Match: All Criteria' (selected) and 'Any Criteria'. At the bottom, there are buttons for 'Search', 'Clear Search', and 'Add C'. Below the main interface, there is a summary row showing 'SMA50', 'Greater Than', and 'SMA200'.

Click on the Search Button. All the scrips with matching criteria will be displayed.

Similarly you can do search on multiple indicators like this:

SMA50 Greater Than SMA200

DMI+ Less Than DMI-

To take the search to a step further, more criteria's for filters can be added like this:

SMA50 Greater Than SMA200

DMI+ Less Than DMI-
